

## Press Release

### **The ability for all to hear: International Accessibility Conference on Hearing Loops and Hearing Technology**

Berlin - During public events people with hearing loss are particularly disadvantaged. Today, thanks to modern technology, their listening experience can be significantly improved.

Under the motto "Future Loops", an international congress from the 6. to the 8. October 2017 in Berlin will offer developers, planners and suppliers all over the world the opportunity to get information and exchange solutions about the latest technologies and future ideas. For people with disabilities, the Congress offers the opportunity to get to know the advantages of hearing loops and related technologies.

The participants will be provided with technical and practical information to improve the hearing accessibility in their day to day environment. The main aim of the congress, organized by the non-profit association Deutscher Schwerhörigenbund eV (DSB), is an exchange of experience on the latest hearing system technology and an open discussion on possible alternatives.

When: Friday 6. - Sunday, 8. October 2017

Where: Conference Center Steglitz International, Schloßstraße/Albrechtstraße 2, 12165 Berlin

Conference languages: English and German (Simultaneous interpretations)

Communication Supports: Speech to Text Interpreters, Inductive Hearing technologies
