

IHLMA Panel-led discussion

**International Hearing Loop
Manufacturers Association**

IHLMA
International Hearing Loop
Manufacturers Association

The IHLMA is an association of the major manufacturers of audio induction loop equipment, aiming to support good quality loop installations around the world. The association can provide support and guidance to anyone interested in Hearing Loop systems. The association also requires that its members abide by our Code of Conduct.

The International Hearing Loop Manufacturers Association panelists will explain why the organisation was originally set up and what their achievements have been to date. They will explain the importance of increasing their membership in order to influence the industry on developing technologies. The audience will be asked for suggestions on projects that IHLMA could get involved with and invite any questions.

Panel Participants:

Andrew Thomas

Andrew is the Marketing Development Director for Contacta Systems, with over 25 years' experience in assistive listening systems.

He is involved in the revision of the BS8300 standard as a BSI committee member and is Chairman of IHLMA. One of his objectives is to improve the standards of hearing loop and assistive listening systems.

Andrew Scott

Andrew is the Projects Director for SigNET (AC) Ltd, one of Europe's largest manufacturers of induction loop amplifiers and Vice-Chairman of IHLMA.

He has considerable experience of standards work in the UK and Europe, and has recently been involved in drafting EN 303 348, which relates to induction loop equipment and the Radio Equipment Directive.

Jonathon Hoskin

Jonathon is the Business Development Engineer at Ampetronic, for the Asia Pacific region and territories within Europe.

With a degree in Audio, Technology and Innovation, Jon has become an expert in all aspects of Hearing Loop technology, and shares this experience with specifiers, system designers and installers, giving training workshops around the world.

Per Persson

Per Persson is the Director of International Sales for Williams Sound, LLC and has spent the past 15 years in International Business.

He has an MS in Industrial Engineering and Business Management. In addition to various sales roles he has worked as a project manager. Per joined Williams Sound in 2015, managing the organisation's international department.
